HIS Company has been formed for the purpose of auquiring from the CHINA COAST STEAM NAVIGATION COMPANY, of Shanghai, the YANGTSZE STEAMER COMPANY, of Shanghai, and from Messrs. JARDINE, MATHESON & Co. the Steamers specified in the Schedule at-THE Undersigned has received instructions tached hereto, together with the business of from A. Lister, Esq., to Sell by Public running Stenmers on the Coast and Rivers of China, and between China, the Straits Settle-

ments, and Calcutta. The Directors believe such a consolidation the various interests represented, and the mak ing provision, by adding Steamers to the presont fleet for meeting the growing requirements of a rapidly developing traffic in the Eastern CRETONNE COVERED DRAWING sons, will render the business of the Company a remunerative investment. STEAM NAVIGATION COMPANY, and the YANG. TSZE STEAMER COMPANY, as specified in the February, 1882, are hereby required to send in

The new Steamer "Seewe" will be taken over at a valuation of £26,000, the "Fooksang" at £32,500, and the "Posnng" at £34,000. The CHINA COAST STEAM NAVIGATION COMPANY was established in 1872 to unite ship. 418] ping interests connected with North China, and has been successful in developing an important carrying trade between Foodlow and Shanghai, Captain G. The YANGISZE STEAMER COMPANY have three Steamers plying on the river between Shang. hai and Hankow, and have hulks, boats, and every Optional Cargo will be forwarded unless necessary facility provided at the various ports | THE Steamship of call for prompt and efficient service in conducting a large carrying and passenger traffic. The Steamers are new, the "Taiwo" having been hunched as recently as last May, and they have been designed to meet the special require. ments of Chinese passengers and the native

The "Seewo" is a new Steamer of 1,406 tons, built at Aberdeen, and despatched to Chingin February last, where she will shortly be joined by the "Fookszag," of 1,557 tons, the building of which has just been completed at Aberdeen and by the "Posang," of about the same tonnage, now approaching completion at Glasgow. These boats have been specially built for the more Southern Coast Trade that has Hongkong for its centre, and in connection with which th Vendors' have already attained an important

position. The China and Calcutta branch of the Company's Service will take the place of the Steamers (their own or chartered) which Messra JARDINE, MATHESON & Co. have run for upwards of twenty-six years, and which have carried the mails between China, the Straits Settlements. and India. This live is a valuable one, and is considered of growing importance, owing to the increasing passenger traffic and trade of China with the Straits Settlements and India. It proposed to build two large and powerful Steamers, specially adapted to this branch of the trade, to take the place of the Chartered Vessels. at present employed in the service, and the Di rectors expect that to accomplish this, and to make the desirable additions to the Coast and River Services, an outlay of £185,000 will be

amply sufficient. The carnings of the CHINA COAST STEAM NA VIGATION COMPANY'S fleet during late years, the results obtained by Chartered Steamers on the B Nos. 10/11, 2 Cases Milk, Order, from lines so provided with tonnage, and the working of the Yangtske River Service, show good realised profits, and it may confidently be anticipated with the substitution of European Vessels for the nutive Junk that is taking place on the 200 (in diamond) No. 230/34, 5 Cases Merchan- the carrying Trade in the Eastern Seas, and on the Rivers of China, that the Company will find ample scope for profitable enterprise. The business, though still capable of great development. has the benefit of being a geing concern, and active service is proceeding on all the lines in dicated, bringing in a revenue out of which the Directors reasonably expect profits to pay divi-dends, besides forming a Reserve Fund for depreciation in the value of Steamers. The following is the only Agrooment that has

been entered into by or on behalf of the Com-1. A correspondent writes to the N. C. Daily News from Tientsin :- The Chinese growth of opium in 1882 is likely to exceed 500,000 piculs. The Convention will scarcely be carried out. He is "Chinese Commercial Agent" in Honolulu, and is known in business as "C. To attain his object of temporarily stopping the emigration, which was "one in the eye" for his rivals in business, he employed the services of the Chinese Minister at Washington to give a tone to his false assertions. I say false with a reason. This will be better understood by your reading a letter which was published in the Pacific Coast Advertiser last August, if I mistake not. I will endeavour to get a copy for you, which will make matters clearer. Not having references at hand I cannot trust too. much to my usually retentive memory, but this I can assert, without fear of being contradicted-that Afong dare not, or never did, refute the denial that was given to him, but contented himself by feeling assured that his object bad been accomplished, having the knowledge that his dispatch, or more properly speaking, that sent by the Minister at Washington, and which he had instigated, was two months ahead of the refutation. That length of time had slapsed before his opponents could get a copy of his letter to Washington. It is on such like information that Sir John Pope Hennessy bases his arguments when speaking on Chinese immigration to the Hawaiian Islands. Consul Travers, of Canton; is to be thanked for his Inoid and truthful state. ments about the Chinese on these islands. As I have often said before, it is a paradise for thom, and I speak from experience in both countries, this and China. By the way, it just occurs to me that I lived fourteen years in China without ever quitting its soil-I beg your pardon, some of those happy days were spent in the Crown Colony of Hongkong, under the wise administration of Sir Hercules Robinson, Mr. Mercer, Sir Richard Macdonnell, Major-General Whitfeild, Sir Ar-

The really important thing is the continual increase of the authority and influence of a rival Power in Northern Persia. In that part of the world the saying "He must increase but I must detwo foreign influences which are face to face. At present it is not a matter of opinion, but a matter of fact, that the increase is on the side of Russin. England has retired out of sight and mind of the greater part of Afghanistan. The Ministerial conception of the whole matter appears to be that the better Russia is placed for striking, and the worse England is placed for COGNACS, SHERRIES, WHISKY, &c., &c. parrying, a blow at India, the more satisfactory is the situation in Central Asia. If this he so, it can only be said that the situation is growing more and more satisfactory every day.
